Room 421 Fortune Times
Plaza 1438 Shanxi Bei Road
Shanghai 200060 - CHINE

The MS in Purchasing and Supply Management aims to provide professionals with a solid understanding of today's supply chain and purchasing industry complex needs. The program also enables students to understand today's ecosystem in the context of socio-ecological as well as digitization. The program will prepare future managers with the knowledge and practical skills necessary to meet today's business requirements. The MS will also provide collaborators with the opportunity to work with international faculties and industry professionals to discover how to apply the know-how in an unstable and changing business environment.

PROGRAM

- Taught in English
- 02 Year program
- International Faculty
- 01 Week Study Tour Abroad (International Academic Mobility)
- Logistic Site Visits
- Cultural Site Visits
