The GIP CEI (Public Interest Group) Campus E.S.P.R.I.T. Industries, is supported since 2014 by national, regional, departmental and community bodies (Chamber of Commerce, city of Redon, Brittany region...). GIP group is a new type of collaborative higher education institution launched by the French authorities between the «Grandes Ecoles» system and the universities to cultivate a large number of talents at all levels from undergraduate to doctoral who can adapt to the development of new technologies in various industries. Under the new round of scientific and technological revolution and the development trend of industrial Internet, industrial informatization, digitalization, and intelligence, the French industrialization system can no longer keep up with the new needs of social development. It is necessary to comprehensively reorganize the entire industrial chain involving production, technology, intelligence, product innovation, delivery time and cycle, supply, logistics, environmental impact, and social security monitoring. Supply chain managers from all walks of life will inevitably become the focus of talent competition. In France's reindustrialization strategy, GIP CEI provides very important training tasks. The school's training objectives meet the social needs of digitalization, intelligence, and ecological transformation, and promote Technological innovation and transformation of scientific research results. The school provides training services and a source of graduates for sectors such as aviation, transport, telecommunications, medical, health, defence, internal security, energy food, robotics, smart and carbon-free transport, agricultural systems and equipment. GIP CEI and its partners now leads a community of over 12,500 former students.

The expertise fields cover:

- 1.Product innovation and design
- 2.Production technology
- 3.Intelligent management of production and supply, logistics, etc., safety and health
- 4.Coordinated management of diversity in society, environment, and corporate performance
- 5.Control the risks and turbulence of the entire chain, especially in terms of supply and demand

The institutions and industries involved in Supply Chain Management are multiple : public institutions, national defense, military industry, energy, oil and gas, telecommunications and communications, film and television and media, textiles and fashion, food production, real estate, transportation, industrial manufacturing, machinery, chemicals , electronic information, automobiles, pharmaceuticals, health and life sciences, medical equipment, retail, tourism and hotels, luxury goods, sports and exhibitions, etc.

MEGS: KEY POINTS

5 Strengths of GIP CEI

- 1.** The unique technical education platform in France, leader in the field of electronics hardware, logistics security and procurement.
- 2.** Close cooperation with 400 enterprises, experts teach on-site at enterprises, and provide students with work-study opportunities.
- 3.** Vigorously develop English-taught programs, and the school has a TOEIC test center.
- 4.** Provide preparatory courses for the BASICS certificate examination project of the American APICS Association.
 - BASICS certificate is a necessary certificate for global supply chain managers
 - The second year of the master's degree is a preparatory course for the BASICS certificate examination project
- 5.** Obtained the French National Quality Standard Certification (QUALIOPI) on July 12, 2021.

Strong support from national and regional authorities

Due to its specific positioning, consistent with national priorities, the GIP CEI has received very strong support from local and national authorities. Since 2015, five projects have been labeled «Priorities» for France, recognizing both the excellence and relevance of the GIP CEI proposal.

The GIP CEI has received strong support from CCI France and the following ministries: Ministry of the Interior, Ministry of Industry, Ministry of Ecological Transition, Directorate of General Transport, National Defense Innovation Agency, National Council for Public Procurement, with the support of the employment agency...

GIP CEI is funded by the European Regional Development Fund, INTERREG Atlantic Area for Energy Efficiency and Renewable Energy Sources 4Water (EERES4WATER).

ESLI (school of industrial logistics)

Higher School of Industrial Logistics, ESLI existed since 1993, was for a time attached to Rennes SB before being incorporated into the GIP CEI. Courses area: Public purchases, Cybersecurity, Logistics, Mobility, E-commerce.

Located at:

- 26 quai Surcouf, 35600 REDON
(Purchasing, Logistics, Supply Chain, Transport, Robotics)
- 55, avenue du President Wilson, 94230 CACHAN (PARIS)

IFALP (school of Procurement)

- 55, avenue du President Wilson, 94230 CACHAN (PARIS)

ESTI (school of industrial technologies)

Higher School of Industrial Technologies, Courses area: Energy, Maintenance and Electronics, Mechatronics Robotics , Supply Chain. The various courses on the Campus combine techniques and management sciences.

The majority of students do their study either through an apprenticeship contract, a professional training contract or even through work- study training.

Located at: 6 rue de la Maillardais, 35600 Redon

MEGS (Management & Engineering Graduate School)

MEGS groups together the activities of hosting international students and exporting of GIP CEI academic know-how to international partner institutions.

The programs concerned are in English and designed according to international standards. They may also involve scientific collaboration with French universities and business schools.

MEGS establishes academic and/or scientific partnerships with the best American, Asian, European and African academic institutions.

EXPERTISES

The Campus is industry-oriented and has the ambition to train students in occupations combining technical and management sciences.

PORTFOLIO OF PROGRAMS

1

Bachelor programs

- Purchasing (ranked 10th in France)
- E-Commerce & Digital Marketing
- Supply Chain (ranked 10th in France)
- Web analytics & Digital Marketing

2

Master programs

Logistics & Industrial Purchasing / Multiple tracks (e-commerce, smart logistics, Purchasing, Automation, Public-Private ecosystems, smart mobilities, Public Purchasing, Green Supply Chain) ranked 12th in France by Eduniversal. Awarded best program launch in 2023.

3

Doctorate program / DBA

4

Training programs

- Hospital logistics / Innovation in green transportation / Purchasing trends & strategies
- Strategic Management of technologies / New trends & Methods in Logistics

5

Certification Lean six sigma

6

Summer programs

7

Tailor made programs : «International Supply Chain Management», «Procurement and Innovation Management», «Supply Chain - Cloud Technology», «Strategic Procurement».

MEGS is a collaborative platform offering, with its French, European and US partners, sometimes **dual degree and credit transfer programmes** in two main areas:

a) Programs « management of transitions »

MSc in Supply chain and purchasing strategies
MSc in Risk Management of international sales
MSc in Data & Business analytics for global supply chains
MSc in Digital Transformation of global supply chains
MSc in financial data intelligence for global supply chains
MSc in risk management for global supply chains
MSc in Sustainable Development for global supply chains
MSc in Supply chains Management and geopolitics
MSc in Supply chain international auditing
MSc in Information Systems for global supply chains
MSc in legal management in global supply chains
MSc in Innovation in global supply chains
MSc in human resource management in global supply chains
MSc in Smart Energy management in supply chain

b) Programs « strategic sectors »

Exemples in progress

MSc in Supply chain of luxury, Cosmetics and fashion sectors
MSc in Supply chain of tourism & hospitality sectors
MSc in Supply chain of Cold Chain Logistics sector
MSc in Supply chain of food & beverage sector
MSc in Supply chain of real estate sector
MSc in Supply chain of car industry
MSc in Supply chain of biopharmaceutical sector
MSc in Supply chain of ports and maritime sector
MSc in Supply chain of seafood & agricultural sector
MSc in Supply chain of electronics sector
MSc in Supply chain of Cultural, artistic exhibitions, sports sectors
MSc in Supply chain of Medical & hygiene sectors

KEY STRATEGIC PARTNERS

CNAM (France)

French National Conservatory of Arts and Crafts (CNAM) is a French public higher education institution, national research centre and grand établissement as well as grande école of engineering, thus part of the French elite universities league. Founded in 1794, CNAM's core mission is dedicated to provide education and conduct research for the promotion of science and industry. With 70,000 students and a budget of €174 million, it is the largest university in Europe in terms of Budget for distance learning and continued education, and in terms of enrolment.

Bachelors by CNAM

Develop and manage a SME Ranked 3 in France by Eduniversal Logistics and flux management Ranked 9 in France by Eduniversal Work Management Ranked 1 in France by Eduniversal

Masters by CNAM

Master Risk management RSE Ranked 7 in France by Eduniversal Master Management de projet Ranked 8 in France by Eduniversal

Master Organisation & conduite changement Ranked 3 in France by Eduniversal Master

Telecom & Networks Ranked 5 in France by Eduniversal

Phd byCNAMin management sciences or engineering sciences

University of Rennes (France)

Ranked 76th -100th in Mathematics (Shanghai ranking 2023). It is a public university located in the city of Rennes.

It specializes in science, technology, law, economics, management and philosophy. There are currently about 26,000 students enrolled, with about 1,800 members of teaching staff and 1,700 other staff members employed by the university. In 2023, the University of Rennes 1 will merge with four schools in the «UNIR» project, in order to create a new University of Rennes.

IUT Rennes (University Institute of Technology - France)

Ranked 6th in France by L'Etudiant.

ICAM

Ranked 12 th bestengineer school by Le Figaro 2023.

Ecole Polytechnique Féminine (EPF Cachan - France)

The school trains engineers with a multidisciplinary profile, who work in all sectors of industry and services. Located in Cachan, as well as in Troyes since 2010 and in Montpellier since 2012, the EPF is a private higher education institution of general interest recognised by the State.

University of Bretagne Occidentale (UBO - France)

The University of Western Brittany is in Brittany, on the north-western coast of France. It is a multicampus university, with the main site in Brest and satellite campuses in Quimper and Morlaix. Brest is one of the world's marine science capitals and is home to 60% of French marine researchers, as well as several major organizations such as IFREMER and IPEV. The city is also famous for its sailing activities. Brittany's economic development is driven by the agri-food, health, and telecommunications sectors. UBO is ranked 11th worldwide (Shanghai rankings 2023 in Oceanography).

ZLC MIT (Spain) Zaragoza Logistics Center (ZLC)

Research and educational institute established by the Government of Aragon in Spain in partnership with the Massachusetts Institute of Technology and the University of Zaragoza. Founded in 2003, ZLC mission is to create an international center of excellence for research and education in Logistics and Supply Chain Management that actively engages with industry and the public sector to develop and disseminate knowledge.

GBSB (Spain)

offers undergraduate and graduate business degrees: Bachelor of Business Administration and Digital Innovation (B.A.), Master of Business Administration (MBA) and various master's degrees. Several Master programs at GBSB Global are accredited by ECBE (European Council for Business Education), the leading accreditation organization in Europe that helps to ensure that accredited members satisfy the requirements of the European Higher Education Area (EHEA) as set forth in the Bologna Process and other EU directives.

GBSB Global is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). ACBSP is a leading U.S. specialized accreditation body for business education supporting, celebrating, and rewarding excellence in teaching.

Dublin City University (Ireland)

Ranked 101-150 in Finance (Shanghai rankings 2023). The university has been named numerous times as one of the world's top 50 universities that are under 50 years old, by the QS World University Rankings list. DCU's QS World University ranking is 391st (jointly) for 2018 and it is ranked in the 51-60 bracket among universities less than 50 years old.

University of Rhode Island (USA)

Public land-grant research university with its main campus in Kingston, Rhode Island, United States. It is the flagship public research as well as the land-grant university of the state of Rhode Island. Academic Ranking of World Universities ranks URI for 51-75 globally for "Oceanography" in 2021.

INSA (Spain)

Private Business School with over 30 years experience in the training sector. It has more than 13,000 alumni from 40 different nationalities.

INTEGRATION DAYS

In the morning, the local actors of Redonnaise life present the cultural and sports offer of the city.

In the afternoon, a track game is organized with L'Echappée Ludique, to discover Redon. The goal: to unite our students by offering them a common memory.

STUDENT LIFE

Through the Student Office, students meet and keep great memories of their years in Redon within campus. BDE organizes various events throughout of the year as the Integration Weekend, as well as activities, such as futsal, karting, wakeboard, Blind Test Night.

SPORTS AND CULTURAL ACTIVITIES

- ➔ Swimming pool, climbing, ping-pong, rowing, horse riding...
- ➔ Cinema, theatre, bowling, music...

THE STRENGTH OF OUR **ALUMNI** NETWORK

+ **12500** GRADUATE

Serge TAIBALY

Transport-logistics and customs clearance manager at Schneider Electric

« There are and will be very good opportunities in the supply chain business in the coming years. »

Jessica FREMONDIERE

Buyer, Novatech Technologies

« Learn from the experiences of your speakers, ask them questions, build your network. »

Sally MORALES

Supply Chain Director, Reckitt

« You have to ask for feedback in order to understand and develop new skills. »

A private group on **LinkedIn** allows graduates to exchange and maintain its professional network.

Many opportunities for alumni meetings:
conferences, debates, testimonials, company visits, afterworks, etc.
And hundreds of job offers a year.

COMPANY VISITS

+ 400 COMPANIES THAT WELCOME OUR STUDENTS

Airbus	The European multinational is the world's largest manufacturer of airliners as well as the leading helicopter manufacturer
Adeos	french leader in metal equipment
Aserti Electronic	is specialized in electronic maintenance of industrial equipments
Cofidur EMS	is an electrical/electronic manufacturing company
E Leclerc Logilec	is the logistic branch of Leclerc, an hypermarket leader with 720 locations in France and 85 stores outside of the country
EuroPlacer	an award winning, global SMT line solution provider, delivers flexibility, reliability and innovation to the SMT pick and place marketplace
Groupe Rocher	is an international family group that has several brands in cosmetics, textile and home care, present in 114 countries
Groupe Roullier	Daring to be different on all 8 of our markets: the Agri-food, Soil and plant nutrition and animal production, Dietary Phosphates, Magnesium, Plant Nutrition for the general public, Plastics, Algology and Renewable Energy
IDEA	deploys logistics solutions for industry and provides its partners with its expertise in project engineering, flow control, protection of industrial goods and industrial and specific transport
Lactalis	Created in 1933 by André Besnier in Laval, Lactalis Group is a family-owned company settled in rural areas, which became dairy industry's global leader
LeRoy Logistique	Is one of the leading French companies in logistics and transport
Manitou	A world-leader in all-terrain material handling, designs, manufactures, distributes and services equipment for construction, agriculture and industries
Naval Group	an international player in naval defence, present throughout the entire life cycle of the ships, the group designs, builds, integrates and maintains submarines and surface ships, as well as their systems and equipment
Orain Transport	develops its activities around two areas of expertise: freight transport and passenger transport
Safran	is an international high-technology group, operating in the aviation (propulsion, equipment and interiors), defense and space markets
Schneider Electric	Schneider Electric's purpose is to empower all to make the most of our energy and resources, bridging progress and sustainability for all
Seico	is an expert in the electronics business and is offering innovative solutions that meet needs in the manufacture of products for the industrial, IoT, security, automotive, energy sectors
Selha Group	an industrial group expert in electronics solutions for aeronautics, defence, telecommunications, energy and medical markets
Socomore	has been creating, manufacturing and commercializing expert solutions for preparation, protection, treatment or control of metallic or composite materials
Stef	is the European leader for temperature controlled logistics and transport
Thales	is a global technology leader with more than 77,000 employees on five continents in five vertical markets — digital identity and security, defence and security, aerospace, space, and transport
Transdev	is a leading public transport company, delivering high quality transportation services around the world
Transgourmet	a key player in delivering food & personal care products to restaurants and bakeries
U Log	is the logistic branch of U Group, the 4th largest distributor of food product in France
XPO Logistics	XPO is a leading global provider of transportation services
